† The projection for United States population are based on a completed cohort fertility rate of 2.1. The new Bureau of the Census projections were prepared using the inflation-deflation variant of the cohort-component method. An immigration rate of 400,000 per year was assumed. Kansas projections assumed that each age group would have similar mortality and migration patterns as it had from 1960-1970, that survival rates for those aged 75 or older would remain constant, and that birth rates would follow the series E projections.

* U.S. projection figures indicate most recent data from *U.S. Statistical Abstract,* 1979.

NOTE: Because of rounding, individual figures may not add to totals.

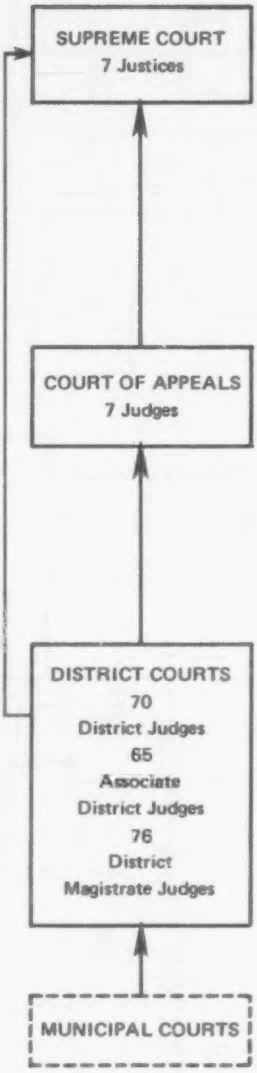
COURTS, CRIME, AND LAW ENFORCEMENT

KANSAS JUDICIAL SYSTEM

(Unification January, 1977)



riginal jurisdiction in proceedings in uo warranto, mandamus, habeas orpus, and direct appeals in criminal ases involving serious classes of felony r life imprisonment. Appellate urisdiction in any case in which a ansas or United States statute has been eclared unconstitutional. (The Court as discretionary power of review over ecisions of the Court of Appeals, and ay transfer cases from one court to nother.)

Intermediate appellate court with jurisdiction over all appeals from the district court except those reviewable in the district court and those in which direct appeal to the Supreme Court is required. (Effective 1978—exclusive jurisdiction over the review of orders or decisions of the state corporation commission in public utility rate cases.)

Court of record with original jurisdiction n civil and criminal cases and limited ppellate jurisdiction. *District judges* xercise full power and authority of the Court. *Associate district judges* have imilar jurisdiction except that they ack jurisdiction over class actions and ctions in quo warranto or mandamus. *istrict magistrate judges* have jurisiction over probate and juvenile matters, isdemeanors, felony preliminary examnations and certain civil actions involvng amounts of $3,000 or less.

Municipal courts exist as entities of the cities which establish them, but they have jurisdiction over ordinance violations only, and therefore, are not state courts.

nification of the state's trial courts was effective January, 1977. Probate, juvenile, county courts and magistrate-level courts of countywide jurisdiction were abolished. The jurisdictions of these courts were consolidated into the district court. A court of appeals was also established as an intermediate appellate court. The Kansas Supreme Court, Court of Appeals, and District Courts constitute the unified state judicial system in Kansas.

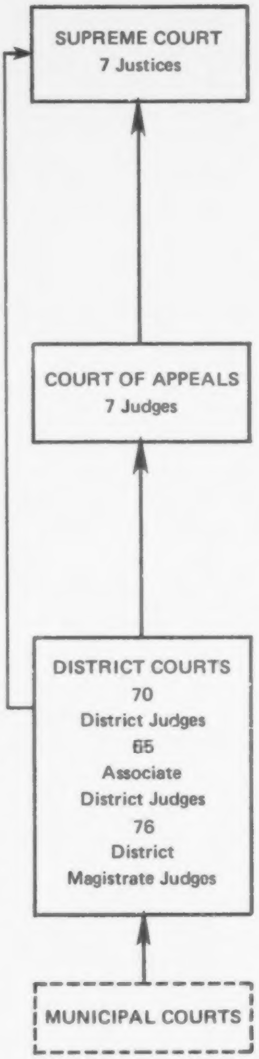
COURTS, CRIME, AND LAW ENFORCEMENT

KANSAS JUDICIAL SYSTEM

(Unification January, 1977)



Original jurisdiction in proceedings in quo warranto, mandamus, habeas corpus, and direct appeals in criminal cases involving serious classes of felony or life imprisonment. Appellate jurisdiction in any case in which a Kansas or United States statute has been declared unconstitutional. (The Court has discretionary power of review over decisions of the Court of Appeals, and may transfer cases from one court to another.)

Intermediate appellate court with jurisdiction over all appeals from the district court except those reviewable in the district court and those in which direct appeal to the Supreme Court is required. (Effective 1978—exclusive jurisdiction over the review of orders or decisions of the state corporation commission in public utility rate cases.)

Court of record with original jurisdiction in civil and criminal cases and limited appellate jurisdiction. *District judges* exercise full power and authority of the Court. *Associate district judges* have similar jurisdiction except that they lack jurisdiction over class actions and actions in quo warranto or mandamus. *District magistrate judges* have jurisdiction over probate and juvenile matters, misdemeanors, felony preliminary examinations and certain civil actions involving amounts of $3,000 or less.

Municipal courts exist as entities of the cities which establish them, but they have jurisdiction over ordinance violations only, and therefore, are not state courts.

Unification of the state's trial courts was effective January, 1977. Probate, juvenile, county courts and magistrate-level courts of countywide jurisdiction were abolished. The jurisdictions of these courts were consolidated into the district court. A court of appeals was also established as an intermediate appellate court. The Kansas Supreme Court, Court of Appeals, and District Courts constitute the unified state judicial system in Kansas.
